

# *Galveston Island Fabrication Facility*

**LoneStar Marine Shelters** has continued its pledge to service the needs of our customer base in the offshore building and accommodations industry sector with the announcement of their new waterfront fabrication facility in Galveston, Texas. LoneStar can now offer to our clients a manufacturing and service facility that is capable of meeting the requirements of any Maintenance Building, Modular Offshore Quarters, Single-lift Structure, Helideck or refurbishment project. With our waterfront dock facility and easy access to the Gulf of Mexico and Houston, our Galveston fabrication yard provides an ideal location for project management and logistics to both customer and transportation needs.
